

Wissem Jderi

Self-Taught Backend Developer with Full-Stack Capability (MERN)

Contact Information

+216 53 353 841 | wissemjderi@outlook.com | Sousse, Tunisia | Portfolio: <https://wissemjderi.vercel.app/> | GitHub: <https://github.com/WissemJderi> | LinkedIn: <https://www.linkedin.com/in/wissem-jderi-a15765386/>

SKILLS

Languages: JavaScript | TypeScript | Python

Frameworks: React | Next.js | Node.js | Express

Databases: PostgreSQL | MongoDB

Testing & Validation: Vitest | Supertest | Playwright | Zod

Tools & Other: Git | GitHub | Postman | Figma | Linux

EXPERIENCE & PROJECTS

Pwnfolio – [Live Demo](#) / [View Code](#)

Personal Project | 2026

Full-stack CTF writeup platform with authentication, writeup CRUD with full-text search and filtering, likes/saves/threaded comments, and profile analytics dashboards (recharts). Built with Node.js, Express, TypeScript, MongoDB/Mongoose, and React. Zod-validated shared schemas keep client and server in sync; 100+ Vitest/Supertest tests. Deployed on Render (API) and Vercel (client).

Dahech Immo, Tunisia – [Live Demo](#) / [View Code](#)

Full Stack Developer (Freelance) | 12/2025 – 02/2026

Delivered a production-ready real estate CMS for a client, enabling management of 100+ property listings through a custom admin dashboard – built with React, TypeScript, Express, MongoDB, and Tailwind CSS.

EDUCATION

In Progress:

OSSU Computer Science & Mathematics (Self-Study)

In progress – expected completion 2027

- **Core CS:** programming paradigms, algorithms, operating systems, networking, databases, security
- **Mathematics:** calculus, discrete math, linear algebra
- **Advanced:** graphics, machine learning, software architecture

Completed:

Full Stack Web Development – **University of Helsinki** [Certificate](#)

TypeScript for Modern Web Development – **University of Helsinki** [Certificate](#)

Junior Penetration Testing (Jr Penetration Tester Learning Path) – **TryHackMe** [Certificate](#)

Cybersecurity & Networking Fundamentals – **TryHackMe** [Certificate](#)

Security Fundamentals & Offensive/Defensive Concepts – **TryHackMe** [Certificate](#)
